Website design pricing

One-time website builds for small businesses. Choose a starting point based on what you want customers to do when they visit.

Website package	What's included	Starting at
One-page website	One scrolling page for your services, hours, location, and a contact form.	**$750**
Business website	Up to five pages with room for service details and a photo gallery. Includes a quote request form and search titles and descriptions for each page.	**$2,000**
Booking website	Everything in the Business package, plus one booking calendar with availability rules, email confirmations, and optional deposit collection through one payment provider.	**$3,000**

Every build includes mobile-friendly design, setup on your domain, and two rounds of revisions. You provide the text, photos, and logo you'd like to use.

Optional website services

Additional page	A new page using the site's existing design.	**From $300**
Monthly care	Software updates, backup checks, and up to 30 minutes of text or photo changes per month.	**$79 / month**
As-needed support	Edits and troubleshooting, including larger updates quoted by the hour.	**$75 / hour**

Request a quote

Send your business name, the pages you need, and any booking or payment requirements. I'll confirm the scope and price in writing before work begins.

Payment terms. 50% to begin and 50% before launch. You pay providers directly for your domain, hosting, paid plugins, and payment processing.

For Google Search and Maps services, see Local SEO pricing on page 2.

Local SEO pricing

Help nearby customers find your business on Google Search and Maps when they search for what you offer. Prices cover one business location.

One time setup options

Choose one. If your website is already in good shape, the profile setup can stand on its own.

Service	What I do for your business	One-time fee
Google Business Profile setup	Set up or update your profile, guide you through verification, and add categories, hours, contact details, photos you provide, and a customer review link.	**$250**
Local SEO launch	Includes profile setup. I research local search terms, update headings and copy on up to three existing pages, and connect Google Search Console to track website searches and clicks.	**$500**

Optional monthly service

Service	What you receive each month	Monthly fee
Local SEO management	I check your profile details, publish one business update, and improve one existing page based on search data. You receive a short report on website clicks and available profile actions, such as call-button taps or directions requests.	**$250**

How it works

You keep ownership of your Google Business Profile and complete any verification Google requests. The profile is free. The fees above cover my setup, website edits, and ongoing work.

Google determines local placement based on how well your business matches a search, how close it is to the customer, and how well known it is. Rankings vary by search and location.
